

Quality Policy

Quality Policy

It is the policy of Amaryllis to supply high quality products and services on time and at a competitive price to the satisfaction of our customers

Achieving and sustaining these high standards requires a systematic and disciplined approach by all employees in all activities associated with a customer's order.

This will be achieved by the maintenance of a Quality System, which encourages continuous improvement in standards of performance and ensures that the needs of our customers are met through the planned and efficient use of resources available to the company.

The implementation of the Quality system will be mandatory but its success can only be achieved by the commitment and participation of everyone in the company. Each and every employee will, therefore, receive support and training in ensuring that the Quality System is understood, implemented and maintained throughout the company.
